Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-20, 23 and 24, drawn to a lighting apparatus, a composition and a phosphor blend, classified in class 313, subclass 501.
- II. Claims 21 and 22, drawn to a method for forming a lighting apparatus,
5 Aw 11/2/04
classified in class ~~44~~, subclass 23.

The inventions are distinct, each from the other because of the following reasons:

Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case one could first provide a radiationally coupling phosphor composition and then provide an LED capable of emitting radiation. One could provide a blue phosphor to the LED and then provide a green and then red phosphor to the LED and then mixing the phosphor already on the LED to provide the radiationally coupling phosphor.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

A telephone call was made to Scott A. McCollister on November 1, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
